

DEPLOYMENT GEAR

#3: STRIKE TEAM DEPLOYMENT BAG (5 DAYS)

Deployments normally last between 4 to 5 days. Remember to pack according to the travel requirements to and from deployment and the space available for gear. If you're deploying by air, make sure to dump all items that are not approved to be carried on planes and adhere to weight limits. If you are deploying with trucks and supporting group vehicle/s, there is opportunity to carry more gear.

The simple rule for packing is this; only pack what you will require and will use over the five days. If you pre pack a deployment bag, make sure to review the gear prior to each deployment and toss out items you don't need over the trip. For example; in most cases, you will not need a cold weather jacket while deployed to the North Coast of NSW. However, a cold weather jacket is a must if deploying to the Snowy Mountains where snow can fall in the middle of summer and frosts can occur on clear nights through summer.

-
- PPE & PPC - gear list 1#
 - Fire Grab Bag - gear list 2#
 - Yellow pants PPC spare
