

## Setting Your Availability via the web on a PC

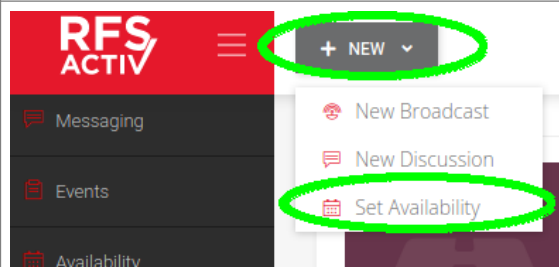

Your 'Availability' can be set via the RFS ACTIV web page regardless of whether you have a Smart-phone or not. You will need a PC, laptop or large tablet. The screen does not scale well to a 7" tablet or phone screen.

In your browser go to <https://activ.rfs.nsw.gov.au/webapp/home>

Enter your mobile number and RFS ACTIV (MyRFS) password to log in.

Once the page is open, click on the 'New' icon along the top of the screen (circled in green in the example on the right)

Choose 'Set Availability'

Choose the setting then the dates.

Make sure you save it.
